Year Pesticides were Used
(NOT the current renewal year)

LOCATION/TOWN(S) D. Londonderry
List town where company is located

IF THIS REPORT COVERS **ALL**
LICENSEES/PERMITEES, CHECK HERE:

Trade Name of Pesticide	Amount A.I. in Concentrate (% or #/Gal)	EPA Reg. Number	Major Crop Or Site Treated	No. of Acres	Total Amt. of Concentrate Used (#, gal. or oz)	DPC Use Only
1*	2*	3*	4*	5*	6*	
Roundup Ultra	41%	524-475	Turf	1/2	1/2 gallons	
Ficam D	1%	45639-3	Buildings	1	1 pound	
Hyvar XL	21.9%	352-34664-51036	Right of Way	10	10 gallons	

- *1. The trade name is the name of the Product found on the pesticide label.
- *2. This is the amount of Active Ingredient shown on the label. It is always shown as a percent on the label, (e.g. 40.4%), but might also be shown in terms of pounds per gallon below the Ingredient Statement (e.g. 4.17 pounds Chlorthanolil per gallon). You may enter either, but be sure to express either as Percent (%) or pounds per gallon (#/Gal)
- *3. EPA Reg. Number is usually found on the front of the label, but might also be on back. DO NOT CONFUSE WITH EPA Establishment Number.
- *4. Be sure to name crop or site NOT pest, e.g. do not put Weeds if applying herbicide, put appropriate crop or site (CORN, TURF, etc.)
- *5. Self explanatory. May report in square feet if less than acre (1 acre = 43,560 square feet).
- *6. How much actual product (not mix) did you use. For example, if (2) 2 1/2 gallon containers of Bravo were applied, report 5 gallons of concentrate. If less than a gallon, report as ounces. If a granular material, report the use in pounds or ounces, as appropriate.
